

What is happening in the month of September?

Due to the Covid19 virus our lobby is closed, but you can still reach our office by mail, phone, or email (see contact info on this website). We are working on making sure services and functions are safe for the public and our staff, but all existing State deadlines are still in place.

Appraisal Information

The 2020 appraisal value data has been conveyed to the taxing entities as part of their budgetary process. During this month those entities, which have not already done so, will be going through the process of setting their tax rates for 2020.

Our appraisers are beginning the discovery and data collection phase for the 2021 appraisal year. During this time, appraisers may be seen throughout the County in neighborhoods and commercial areas as they are measuring new residential or commercial construction, reviewing and updating characteristics of existing construction and/or land parcels, and reviewing, updating, or adding inventory of present or new businesses. Aerial imagery and analysis tools are utilized to assist in staff efficiency, and ensure proper valuations and equitable results during the assigned/limited time for this phase. This process requires collection and analysis of three types of data: General data, which affect values on regional or neighborhood levels; specific data, about the site and improvements of a property; and comparative data, which regards recent sales, cost, and income information for similar properties.

General Information

If you have changed your mailing address in the last year, please make sure our records are correct. You can check this on our website, or contact our office.
